OBJECTIVE

- Seeking a challenging position in a growth-oriented organization where I can apply my knowledge and continuously enhance my skills while contributing to the success of the organization.

EDUCATION

- **Maturi Venkata Subba Rao Engineering College (MVSR)** **2021 - 2025**
  B.E in Information Technology CGPA: 9.23
- **Sri Chaintanya Junior College** **2019 - 2021**
  Mathematics Physics and Chemistry Percentage: 97%
- **Sri Chaintanya School** **2018 - 19**
  SSC CGPA: 9.8

EXPERIENCE

Assoc. Implementation Engineer- e2open **July 2025 - Present**

- Configured and customized e2open SCPM product based on client business requirements, ensuring accurate system alignment with operational workflows.
- Performed UI-level configurations adding customizations, enabling/disabling functionalities, and designing workflow processes.
- Developed business logic, validations, and custom rules using Java to enhance application behavior and ensure data accuracy.Utilized SQL to retrieve, validate, and analyze transactional data and resolving data-related issues.
- Implemented data mappings and transformation logic using Groovy scripting Language.
- Worked with XML and properties files for application configuration and system enhancements.
- Conducted testing and validation of configurations to ensure seamless deployment and issue resolution.

SKILLS

- **Programming:** Python, Java ,HTML,CSS, Groovy.
- **Databases:** MySql, MongoDB.
- **Developer Tools:** Vs Code, Jupyter Notebook, Linux, Docker, GitHub.
- **Soft Skills:** Communication, decision making, leadership skills, Adaptability.

PROJECTS

AutoWisher **September 2023**

- Developed and implemented a system to automatically send birthday wishes to contacts on WhatsApp using Python and the PyAutoGUI.
- Designed a user-friendly interface to input contacts and personalized birthday messages that would deliver the message at a particular time. (Click Here)

Translate Xpert **January 2024**

- Developed a text translation application using Python and Tkinter GUI toolkit to translate text into 109 languages using Google Translate API.
- Demonstrated proficiency in Python programming for backend development, including API integration and data processing and applied GUI design principles using Tkinter. (Click Here)

Email Alerts on WhatsApp **June 2024**

- Developed a web application using Node.js, React and leveraging the Twilio API for integration to allow users to receive email notifications on WhatsApp, enhancing real-time communication efficiency.
- Addressed challenges in integrating complex APIs (Twilio) with Node.js and IMAP backend, ensuring secure and efficient data flow.
- Received positive user feedback for demonstrating strong problem-solving skills and innovative thinking (Click Here)

Final Year Project: Open Care **January 2025**

- Developed and trained machine learning models for detecting brain tumors, lung disease, breast cancer, and diabetes using medical imaging and clinical data to support accurate diagnosis.
- Integrated a Llama-3 Medical Chatbot based AI medical assistant to provide real-time conversational support and clinical decision guidance for doctors. Implemented NLP-driven response generation to deliver instant second opinions and streamline doctor to doctor collaboration.
- Designed and implemented a real-time notification system to alert doctors for urgent cases and specialist consultations (Click Here)

CERTIFICATIONS

- Certificate of completion of AI-ML Virtual Internship supported by AWS Academy.
- Internship Completion Certificate in Web Development from PHN Technology. (Virtual Internship).
- Certificate of completion Programming Essentials in Python by Cisco Networking Academy.
- Certificate of completion Career Essentials in Data Analysis by Microsoft and LinkedIn.
- Certificate of completion Docker Foundations Professional by Docker and LinkedIn.

ACTIVITIES

Street Cause MVSR **2021-2023**
Ex-Executive Board Member (Vice President)

- Developed my leadership skills and managing and organizing events.

National Cadet Corps **2022-2025**
Cadet Corporal

- Developed my leadership skills and time management training the cadets.

Arts Club Ex-Head MVSR **2024-2025**

ACHIEVEMENTS

- Second prize in Project Expo (AI/ML for Healthcare and Academia) 2024 for Email Alerts on WhatsApp.
- Achieved Best Cadet SW MVSR 2025 in NCC.
- Successfully organized “Colosseum” in collaboration with MVSR Radio, raising funds in support of the NGO Street Cause.
